SUMMARY

Python backend and data developer with 3+ years of professional experience. At Sixtema I built end-to-end Python data pipelines with Airflow and FastAPI; today, at Nazaries Intelligenia, I take over legacy Django REST APIs on PostgreSQL and bring them up to current standards. I'm focusing my career on data engineering.

Outside work I run an end-to-end IoT data platform: a Go service ingesting device data over MQTT, and dbt models on PostgreSQL following a medallion architecture (bronze → silver → gold). I'm also studying Applied Data Science at UOC.

EXPERIENCE

Nazaries Intelligenia Jun 2025 – Present

Backend Developer

- Take over legacy Django REST APIs for public-sector clients, work out what they actually do, and refactor them up to current engineering standards.
- Maintain them in production, with PostgreSQL as the primary data store.
- Also contribute to separate search projects built on Elasticsearch.

Sixtema May 2023 – Jun 2025

Data Developer *Aug 2023 – Jun 2025*

- Built end-to-end Python data pipelines, orchestrated with Airflow, for dairy-industry and cybersecurity clients.
- Modelled and queried the data in PostgreSQL.
- Ingested data from external APIs and ZeroMQ message streams.
- Exposed the processed data through FastAPI and Flask services.

Web Developer Intern *May 2023 – Aug 2023*

Developed web pages using CakePHP.

SIDE PROJECTS

central-pipeline

End-to-end IoT pipeline for my home lab: Go ingestion over MQTT into PostgreSQL, modelled with dbt in bronze → silver → gold layers.

Go · dbt · PostgreSQL

mutual-watchdog

Watchdog and failover for my home lab: an ESP32 and a Go service monitor each other over MQTT, and a failover on AWS (Lambda, EC2, S3 and SSM, deployed with SAM) takes over when the lab goes down.

Rust · Go · MQTT · AWS

EDUCATION

UOC — Applied Data Science (Degree) Feb 2026 – Present

IES San Clemente — Web Development (Higher Technical Degree) Sep 2023 – Dec 2025

Liceo La Paz — Microsystems and Networks (Intermediate Technical Degree) Sep 2021 – Jul 2023

AWARDS

Bronze Medal (x2) – Spanish Informatics Olympiad (OIE)
Apr 2022, Apr 2023

Winner (x2) – Galician Informatics Olympiad (OIG)
Feb 2022, Feb 2023

CERTIFICATIONS

PCPP1 – Certified Professional in Python
Python Institute Sep 2025

AWS Certified Developer – Associate
AWS Feb 2025

SKILLS

Python · **SQL** · **PostgreSQL** · **dbt** · **Apache Airflow** · **FastAPI** · **Go** · **ZeroMQ** · **Docker** · **Django REST**

Also worked with: AWS (certified; Lambda, EC2, S3, SSM) · MQTT · Flask · Kafka · Elasticsearch · Rust
